Honors notations for Spring and Summer Quarter graduates are based upon student records as of the end of the Winter Quarter. Official designations are dependent upon the complete student record.

Academic Dress

Questions are often asked about the significance of the academic dress worn by the faculty and graduates.

The academic regalia worn at Commencement continues a tradition which began with the earliest western universities in the twelfth century when robes and hoods were standard garments of the day. This tradition was revised in America in the seventeenth century by students who felt that the robes not only added dignity to the commencement ceremony but that they also provided a single democratic and formal dress for rich and poor graduates alike.

All candidates for degrees wear plain black gowns and black "mortarboards". The type of gown and color of the hood worn by members of the faculty designate the field in which the individual received his highest degree and the institution which granted the degree. Bachelors' and masters' gowns have pointed sleeves. Doctors' gowns have rounded open sleeves. There are no trimmings on the gown for the bachelor's or master's degree, but gowns worn by holders of doctors' degrees are faced down the front with black velvet with three black velvet bars across the sleeves. In some cases, the gown is trimmed in a color designating the field of study rather than in black

Hoods are worn around the neck and over the gown. The candidates for the master's degree will be presented their hoods during the ceremony. The inside of the Cal State hood is lined in red, white, and black, Hayward's colors; the outside of the hood is trimmed in a color representing the discipline in which the graduate earned his degree. The doctor's hood is longer than the master's hood and it too is lined with the official colors of the institution which granted the degree and the outside trim represents the field of doctoral study. In addition, the doctor's cap is worn with a gold tassel. Some examples of red or other colors of gowns and exceptions to the Oxford or "mortarboard" cap may be present. Most of these represent foreign institutions.
